Through the years you have accomplished many things . which do you feel are most important and personally satisfying? Which do you feel is the motivating source for your award?

Most satisfying :: having raised 3 children who are very accomplished in their careers and are very nice people plus we all enjoy each other.

Working as a volunteer in causes and organizations I believe in has been very satisfying all of my adult life.

Helping people learn, grow, have fun has been a major motivation for my career and in my volunteer and semi-volunteer activities.

I Enjoy Life especially when I am involved with bringing knowledge, joy and laughter into the lives of children and seniors. I believe MUSIC is important in our lives so I help bring music education to the children of Orange County..by volunteering in their programs and raising funds for the programs using my PR writing and video abilities. I help bring Classical And/ or Popular Musical presentations to the Seniors of L W .

I use my skills in Video Production to assist clubs, organizations and causes to reach people in L W and area with their meetings etc on Channel 6.

ENTHUSIASM is my best quality and my biggest downfall. Involvement and Commitment to the ideas, clubs and organizations I work with is an important ./

I am a facilitator. I love to help people learn, perform, enjoy working on wothwhile or just fun projects. As a Director, it is fun to share ideas, then let people use their talents to give enjoyment to the audience.

(My husband, Howard, is the support. person in my life. Since living in LW. . He is my back-up video camera man at all the big Event tapings. We have become best friends and co-workers. We support each other in doing our own "thing" but work as a team .
