

Seniors Pool Their Talents

Splashing along happily through their retirement years are the Aquadettes of Laguna Hills, Calif. Here, 12 of the 24 swimming seniors practice a Hawaiian number for their annual synchronized water ballet show (above). The average age of team members is 72 and ages range up to a vigorous 79. The "baby" of the group is just 57. The Aquadettes organized 16 years ago and practice all year long — rain or shine — for their annual production in August. Showing why they always make a splash, 14 beaming team members pose in the colorful costumes they wear in various show routines (right).
