**WHY MOVE TO LEISURE WORLD?-- Retiring from teaching, I
wanted a small town atmosphere, to stay in California, enjoy new
projects and activities and perhaps contribute any skills I might
have to the community. Found my nitch and my joy in Leisure
World with its beautiful surroundings, safe environment and**

affordable,country club amenities. The fact that it encourages a learning atmosphere, offers friendship and opportunities to give service has only reinforced the positiveness of my decision.

MOST SATISFYING ACCOMPLISHMENTS--

I have enjoyed the opportunity to share my experience and teaching abilities for further education and participation in the many activities available here in LW. Serving on the United Board and helping maintain the viability of the Disaster Task force have been fun and rewarding. I bask in the love and accomplishments of my children and grandchildren and look forward to spending more time with each of them. Their analysis of me, written last year, I feel pretty well sums up who and what I am these retirement days---
